

Identify a typo that occurs in *real life* - outside of school. Spot a spelling error on a billboard, listen for a grammatical error while having a conversation, or perhaps spot a punctuation error on a menu. Any of these would work, as would numerous others. The possibilities are endless. Write the error as you heard it or saw it on the left side. Then correct the errors and write it as it should have been written or spoken.

| <u>Typo</u> | <u>Correction</u> |
