

ATTENDANCE POLICY

Good attendance is essential for a quality learning experience. Since the work is highly concentrated in fewer days than a regular school year, faithful attendance is required for credit to be awarded. Students who miss more than four (4) hours per session of classroom instruction in a course will not be awarded credit for the course. **It is essential that students and their families plan their summer activities before the student registers for summer school.** Situations which take the student away from the class for more than four (4) instructional hours will prevent his/her earning credit. Punctuality is also expected. Three (3) tardy marks of no more than 5 minutes will be counted as an absence of one (1) hour. Tardies over 5 minutes will count as one (1) hour of missed class. Exceptional situations may be reviewed. Any time missed because of disciplinary infractions will be counted against the four (4) hour time limit.

DISCIPLINARY STATEMENT

All students will be expected to adhere to the student code of conduct. Violations of the code of conduct could result in the student missing part or all of the time remaining in the school day or complete dismissal from the class. Disciplinary time is deducted from the four (4) hour attendance limit. **There will not be a refund of the registration fee if a student is dismissed from school for behavior or attendance problems.**

Questions regarding the programs please contact the high school counselor according to the student's last name at 330-664-4827.
