Mental and Behavioral Health Community Resources

If you or someone you know is in need of counseling or other support, please contact one of these agencies.

Mobile Response and Stabilization Services (MRSS) are resources provided by Coleman Health Services to help children, young adults (up to age 21), and their families experiencing a **mental or behavioral health crisis** no matter where they are. Issues like depression, self-harm, grief and loss, substance use, family conflict, and suicidal thoughts can escalate into a crisis anywhere and anytime. Services are provided at no cost and the mobile response team will come to the youth and family at their home, school, workplace, or another community setting. Ongoing stabilization services for up to 6 weeks and linkage to community supports and services are also part of MRSS. **330-564-4520**
www.colemanservices.org

988 is a three-digit number for mental health, substance use and suicide crises available to Ohioans who are experiencing a mental health or addiction crisis, and their family members.

When you call or text 988, you will be connected to the National Suicide Prevention Lifeline network, made up of around 200 crisis call centers and national backup centers. That means anyone, anywhere in the country can contact 988 during a mental health crisis and be connected with a trained crisis counselor who can listen, provide support, de-escalate the situation and connect you to additional resources that might help. The Lifeline can respond to any type of mental health crisis or emotional distress. It is free, confidential and open to a person in crisis or someone calling on behalf of another.

If you or someone you know is struggling or in crisis, help is available. Call or text **988!**
