

Hello!

My name is Brandy Turner and I am the Volunteer Coordinator at Serenity Hospice here in Northeast Ohio. I am reaching out to see if it would be possible for me to meet with you and/or your guidance counselors to tell you about our Student Volunteer Program that we are starting for students to interact with our Hospice Patients.

We are expanding our typical Volunteer Program to include High-School students (age 16 and up) that can interact with our Patients in a variety of ways. We have many areas that we utilize volunteers and we are hoping that by reaching out to students we can start a culture of Volunteerism at a young age and help our patients feel young again!

We have several activities that we hold at our nursing facilities in the area such as art therapy where the students would help the seniors with a simple painting, help with our therapy dog program, joining us in wishing the Patients Happy Birthday by singing and delivering balloons, playing music for them, doing crafts with them, and other activities such as scrapbooking and simply listening to their stories.

As an incentive to your students who choose to Volunteer (not just with our service but for any Volunteer work that they do), Serenity Hospice is a certifying organization for the Presidential Service Award for Volunteerism, which is great for college applications. I would like to extend an invitation to any of your Student Volunteers to be considered for the Award. You don't have to do anything and it doesn't cost any money to your school or the students, we hold a ceremony once per year for the eligible Volunteers.

Please let me know if you think any of your students would be interested in Volunteering with us!

Thank you so much for your time!

A handwritten signature in black ink that reads "Brandy Turner". The signature is fluid and cursive, with the first name being more prominent.
