

Multiple Choice Timing

LEAVE NO QUESTION BLANK!!

- ▶ Guessing does NOT count against you.
- ▶ Always put an answer down, if you have no idea.
- ▶ If the time is up, fill in answers without looking at the questions.

Method 1

- ▶ There are 60 questions in 90 minutes.
- ▶ 90 seconds a questions on 10 questions every 15 minutes
- ▶ Every 10 questions check you are keeping pace.

questions	Time (min)
10	15
20	30
30	45
40	60
50	75
60	90

Biggest mistake

- ▶ Don't stare at one question for too long.
- ▶ Its disrupts your rhythm and your confidence.
- ▶ Just move on.

Method 2

- ▶ The 2 to 3 pass method
- ▶ Pass 1, I can answer that question in 30 seconds or less, answer it. Otherwise skip the question.
- ▶ Pass 2 I can answer that question, but it will take some time, answer it.
- ▶ Pass 3 everything else.

Differences

- ▶ Method 2 is better if you can't stay on pace.
- ▶ Your time is used on questions you know.
- ▶ Extra time goes to questions you had to guess on anyways.
- ▶ The big draw back is it wastes time!

If you don't know which to use...

- ▶ Hopefully we have done enough practice tests, that you know which is better for you.
- ▶ If you are unsure, start with method 1. If you get behind, switch to method 2.
